Subject: Yuma, AZ impact of spill?

Hello, I'm a reporter with the Yuma Sun newspaper, serving a community near the Mexico border and the mouth of the Colorado River. I wanted to see if there are any more projections being done about the effect, or lack of effects, the Animas River spill will have on our region's water supply or environment. Please let me know what we can advise our readers about this situation. I should be available by email or phone all day today.

Thank you very much for your time, I understand you are all very busy responding to this incident.

Blake Herzog, reporter

Yuma Sun
